About This Game

Shattered Lights is a one-of-a-kind, fully roomscale based VR horror game which takes you on a journey down a seemingly abandoned underground medical facility armed with nothing but a flashlight and your sanity.

Using non-euclidean geometry the game will immerse you into a world where every single step you take is purely physical and you'll never once have to use controllers to move around, even so, you'll still be able to explore intricate areas, impossible geometry and any situation that Shattered Lights will throw at you.
